Tobacco Stocks Report as of January 1, 1966

U. S. DEPARTMENT OF AGRICULTURE
CONSUMER AND MARKETING SERVICE
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Consumer and Marketing Service.

Stephen E. Wrather
Director, Tobacco Division.

STATISTICAL REPORTING SERVICE

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total stocks of leaf tobacco lower than a year ago

Leaf tobacco stocks in the United States and Puerto Rico totaled 5,577 million pounds (farm-sales weight) as of January 1, 1966, based on the quarterly reports of dealers and manufacturers. This is a decrease of 87 million pounds in leaf inventories compared with the previous January 1 (5,664 million). Smaller stocks of flue-cured were the principal factor in this overall decline. Stocks of imported cigar leaf were higher than on January 1, 1965.

Marketings by tobacco growers of the 1965 crop prior to January 1, 1966, totaled approximately 1,530 million pounds, or 81 percent of the production. About 1,915 million pounds were sold in the corresponding period last year, representing about 84 percent of that year's crop.

Stocks as of January 1 included about 1,288 million pounds (farm-sales weight) of leaf tobacco under Government loans, down 84 million from a year ago. Smaller flue-cured and burley loan holdings accounted for most of the decline. Loan stocks as of January 1, 1966, were divided as follows: Flue-cured, 924.1 million pounds; burley, 287.2 million; Maryland, 20.2 million; fire-cured, 32.6 million; dark air-cured, 20.1 million; and cigar leaf, 3.9 million.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See tables in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

CIGARETTE-LEAF STOCKS

Flue-cured stocks substantially lower, burley down slightly
Maryland and Oriental higher than a year ago

Stocks of flue-cured tobacco totaled 2,942 million pounds on January 1, 1966--a decline of 100 million pounds from the record high of last January 1 (3,042 million). Marketing of the 1965 crop was completed by January 1, with producers sales totaling 1,058 million pounds, about 321 million less than the 1964 crop (1,379 million).

Burley tobacco holdings this January 1 were 1,676 million pounds--only 4 million below the stocks of a year ago (1,680 million). Producers' sales of the 1965 crop on the auction markets prior to January 1 this year totaled about 435 million pounds, or about 75 percent of the crop. About 80 percent of the 1964 crop was marketed through the corresponding date a year earlier.

Maryland stocks as of January 1, 1966, were 89.9 million pounds--7.9 million more than were reported a year earlier (82.0 million).

Stocks of foreign-grown cigarette and smoking tobacco (Turkish and other) were 289.2 million pounds--4.6 million more than the inventories of a year ago (284.6 million).

DARK TOBACCO STOCKS

Holdings of fire-cured stocks lower
Dark Air-cured stocks show little change from January 1, 1965

Fire-cured tobacco stocks, reported as 105.4 million pounds on January 1, 1966, were 3.7 million below those of a year ago (109.1 million). Declines occurred in all types. Virginia fire-cured holdings on January 1, 1966, were 18.0 million pounds; Eastern District Kentucky and Tennessee fire-cured, 69.1; and Western District, 18.3 million. Sales of the 1965 crop of Type 21 on the auction markets prior to January 1 were about 4.6 million pounds (7.6 million up to the same date a year ago). Markets in Types 22 and 23, as is customary, did not open until after January 1.

Holdings of dark air-cured tobacco totaled 67.5 million pounds on January 1, 1966--1.1 million less than were reported a year earlier (66.6 million). A larger inventory of Type 36 offset declines in Types 35 and 37. One Sucker stocks on this January 1 were 39.7 million pounds; Green River, 23.2 million; and Virginia sun-cured, 4.6 million. Auction sales of dark air-cured leaf prior to January 1 totaled around 7.8 million pounds (12.1 million the previous year for the same period).

CIGAR LEAF STOCKS

Domestic types down from a year ago
Imported cigar leaf shows increase

Holdings by dealers and manufacturers of all domestic types of cigar leaf tobacco were reported as 276.4 million pounds on January 1, 1966 (283.3 million a year earlier). Stocks of foreign-grown cigar leaf totaled 126.3 million pounds--up 12.4 million from last year (113.9 million).

Cigar filler type stocks totaling 183.9 million pounds were 3.8 million smaller than those of a year ago (187.7 million). Pennsylvania Seedleaf stocks this January 1 were 112.1 million pounds; Ohio filler, 15.4 million; and Puerto Rican, 56.4 million.

Stocks of cigar binder types were 66.0 million pounds on January 1, 1966 (68.3 million the previous year). Northern Wisconsin showed a small increase but all other types were down. Stocks of Connecticut Valley Broadleaf this January 1 were 13.6 million pounds; Connecticut Valley Havana Seed, 7.4 million; Southern Wisconsin, 20.1 million; and Northern Wisconsin, 24.9 million.

Shade-grown cigar wrapper stocks this January 1 were 26.5 million pounds--down almost 1 million pounds from the figure reported a year earlier (27.3 million). Stocks of both types were lower as compared with the previous January 1. Stocks of Connecticut Valley Shade on January 1, 1966, totaled 16.6 million pounds; and of Georgia-Florida Shade, 9.9 million. It is most likely that all of the 1965 crop of 22.9 million pounds was in stocks by January 1, 1966.

Stocks of Cuban (Havana) leaf were reported at 9.0 million pounds--a decline of 5.5 million from a year ago. Holdings of Philippine Islands (Manila) at 47.6 million were 19.6 million more than on last January 1. Stocks of Indonesian leaf were 6.9 million pounds (down .2 million), Brazilian, 15.6 million (up 3.6 million); Colombian, 15.7 million (down 2.0 million); Dominican Republic, 15.8 million (down 7.7 million); Paraguay, 4.8 million (up 1.3 million); and other foreign-grown, 10.8 million (up 3.2 million).

STOCKS OF TOBACCO SHEET (see table 5)

Stocks represented in tobacco sheet show increase

Stocks of leaf represented in inventories of "tobacco sheet" totaled 11.7 million pounds (reporting weight), compared with 8.1 million on the previous January 1. Of the total in "tobacco sheet" this January 1, 9.2 million pounds were for use in cigarettes and smoking tobacco, and 2.5 million for cigar binder and wrappers.

Table 1.--Factors for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco

AUCTION MARKET AREAS (Types 11-37) 1/

Type name	Type number	Factors to multiply by to convert -

IMPORTED LEAF (Types 81-90)

Type name	Type number	Unstemmed equivalent	Farm-sales weight equivalent	Farm-sales-weight equivalent From packed weight 1/
Cigar leaf	81-88	1.400	1.624	1.16
Cigarette and smoking tobacco	90	1.333	1.466	1.10

1/ Types 11-37 are reported on the basis of packed weight.

2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, January 1, 1966, compared with other quarters 1/ 2/

FARM-SALES WEIGHT

1965	4.9	-	1.9	6.8	4/ 8.3	3/15.1				

1/ Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

2/ The carryover stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

3/ Subject to revision.

4/ December 1 estimate, U. S. Crop Reporting Board, SRS.

Table 4.--Stocks of leaf tobacco, including leaf in tobacco sheet 1/, by types and, where applicable, by groups of grades, owned by dealers and manufacturers, January 1, 1966 compared with January 1, 1965, and October 1, 1965

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet. 2/ Subject to revision.
3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.
4/ Includes Puerto Rican on the Island, Type 46. 5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.
* Revisions.

Table 5.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and wrapper, and for cigarettes (including smoking tobacco), separately 1/

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealers holdings.

4/ Includes stocks on the Island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 5 on page 14.

Table 7.--Stocks of leaf tobacco owned by dealers and manufacturers, summary by types, January 1, 1966 compared with other quarters 1/ 2/

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, Quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1965, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 5 on page 14.

TABLE A.--Stocks of foreign-grown tobacco - FARM SALES WEIGHT 1/

The conversions of imported tobacco stocks shown in this table are for comparative purposes with the farm-sales-weight equivalent of United States-produced tobaccos. Stocks, overall supplies, and disappearance of the domestic types are quoted in terms of the farm-sales-weight equivalent, and the conversion of imported tobacco stocks to this basis provides a more realistic comparison. Previously, stocks of imported tobacco had been converted only to an unstemmed-equivalent basis. Also, the actual reported weight of overall leaf inventories will continue to be shown in Tables 4, 5, 6, and 7.

1/ Stocks of foreign-grown cigar leaf (unstemmed equivalent) are converted to farm-sales-weight by multiplying by the factor 1.16.

2/ Prior to July 1, 1962, stocks from Brazil, Colombia, Dominican Republic, and Paraguay were not reported separately, but were included under Other Foreign-grown Cigar Leaf, Type 84 (beginning July 1, 1962, Other Foreign-grown Cigar Leaf is designated as Type 88).
